

AP U.S. History Summer Assignment 2021

Welcome to APUSH!

Students enrolled in AP U.S. History will need to complete a summer assignment to help prepare for the course. Please understand that the course is taught very similar to a freshman level college survey course. The reading, writing, and analytical demands placed on students in this course are substantial. We will move through the content fairly quickly during the school year, therefore it is crucial that you are properly prepared before class begins. Students are expected to have strong knowledge of Period 1 (1491 – 1607) before class begins and the summer assignment will help you do just that.

With most of the assignments, there will be due dates throughout the summer with online submissions through Google classroom. Therefore, it is ***very important for you to come to a meeting on Tuesday June 1st from 2:10-2:55*** for me to explain the assignments and answer any questions that you may have along with giving you the Google classroom access code. All summer assignments will be counting towards your first test for a Term 1 grade. 50 points will be the summer work and 50 points will be a test grade. Failure to turn in assignments on time throughout the summer will be counted as late and *may* result in removal from the course altogether. If all goes according to plan the summer work will be reviewed the first week of school culminating in your period 1 assessment.
